

CCS Directive and NER 300 – State of play

**European CCS Demonstration Project Network
2011 Sharing Event No. 3, Lodz, Poland**

28-29 September 2011

Martina Doppelhammer
Policy Co-ordinator, DG Climate Action

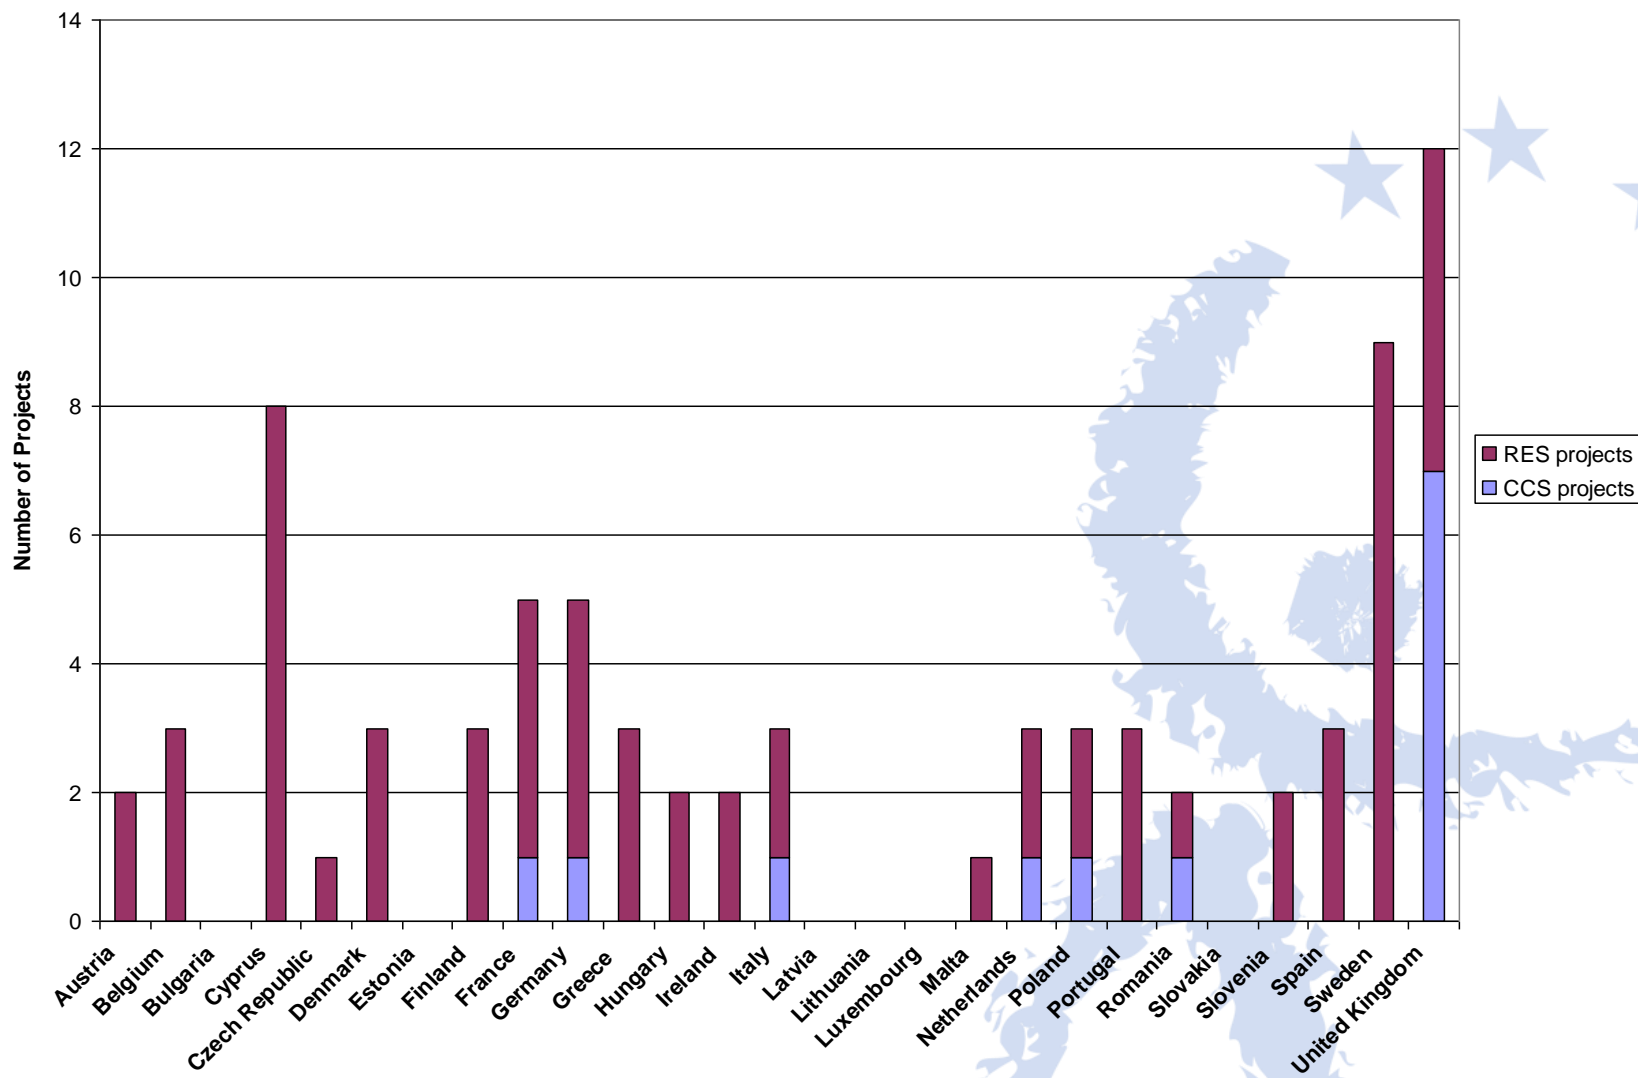

- ★ Transposition deadline expired on 25 June 2011
- ★ Infringement procedures launched against 25 MS on 18 July 2011
- ★ Conformity checking about to start
- ★ MS implementation reports due by 11 August 2011, about half of those received
- ★ COM due to submit implementation report to Council and EP in May 2012
- ★ First permit review ongoing

- ★ EIB to finalise due diligence assessment, rank projects and submit recommendations for award decisions by 9 Feb 2012
- ★ Award decisions envisaged for second half 2012
- ★ COM preparing the post-Feb period:
 - ↪ Competitiveness check
 - ↪ Eligibility check
 - ↪ Confirmation with MS
 - ↪ Consultation of the Climate Change Committee

- ★ Knowledge sharing: Options for Body under discussion, procedures, templates
- ★ Progress on monetisation, EIB to communicate shortly

| TOTAL NUMBER OF CCS PROJECTS | 13 |
|--|-----------|
| power generation: pre-combustion 250 MW [CCSpre] | 3 |
| power generation: post combustion 250 MW [CCSpos] | 6 |
| power generation: oxyfuel 250 MW [CCSoxy] | 2 |
| industrial applications implementing (a) CCS on refineries with 500 kt/y stored CO ₂ from one or more sources within the refinery; (b) CCS application to cement kiln with 500 kt/y stored CO ₂ ; (c) CCS application for primary production routes in iron and steel production with 500 kt/y stored CO ₂ ; or (d) CCS application for primary production routes in aluminium production with 500 kt/y stored CO ₂ [CCSind] | 2 |
